

**Oakland Township
Sewer and Water Rates
and
Water System Master Plan
Phase I
Project Overview**

June 10, 2014

Introductions

Oakland Township

Sewer Rates

- ❖ Rate Components
 - ❖ OMID Bond Payments
 - ❖ COSDS Sewage Disposal
 - ❖ WRC Operating Costs – Local System

- ❖ COSDS Sewage Disposal Rate Component
 - ❖ 10.3% Increase (Replenish Reserves - Perry St Diversion Project)
 - ❖ \$58.68/REU/Quarter to \$64.72/REU/Quarter

- ❖ Overall Rate
 - ❖ 7.4% Increase
 - ❖ \$95.63 /REU/Quarter to \$102.74/REU/Quarter

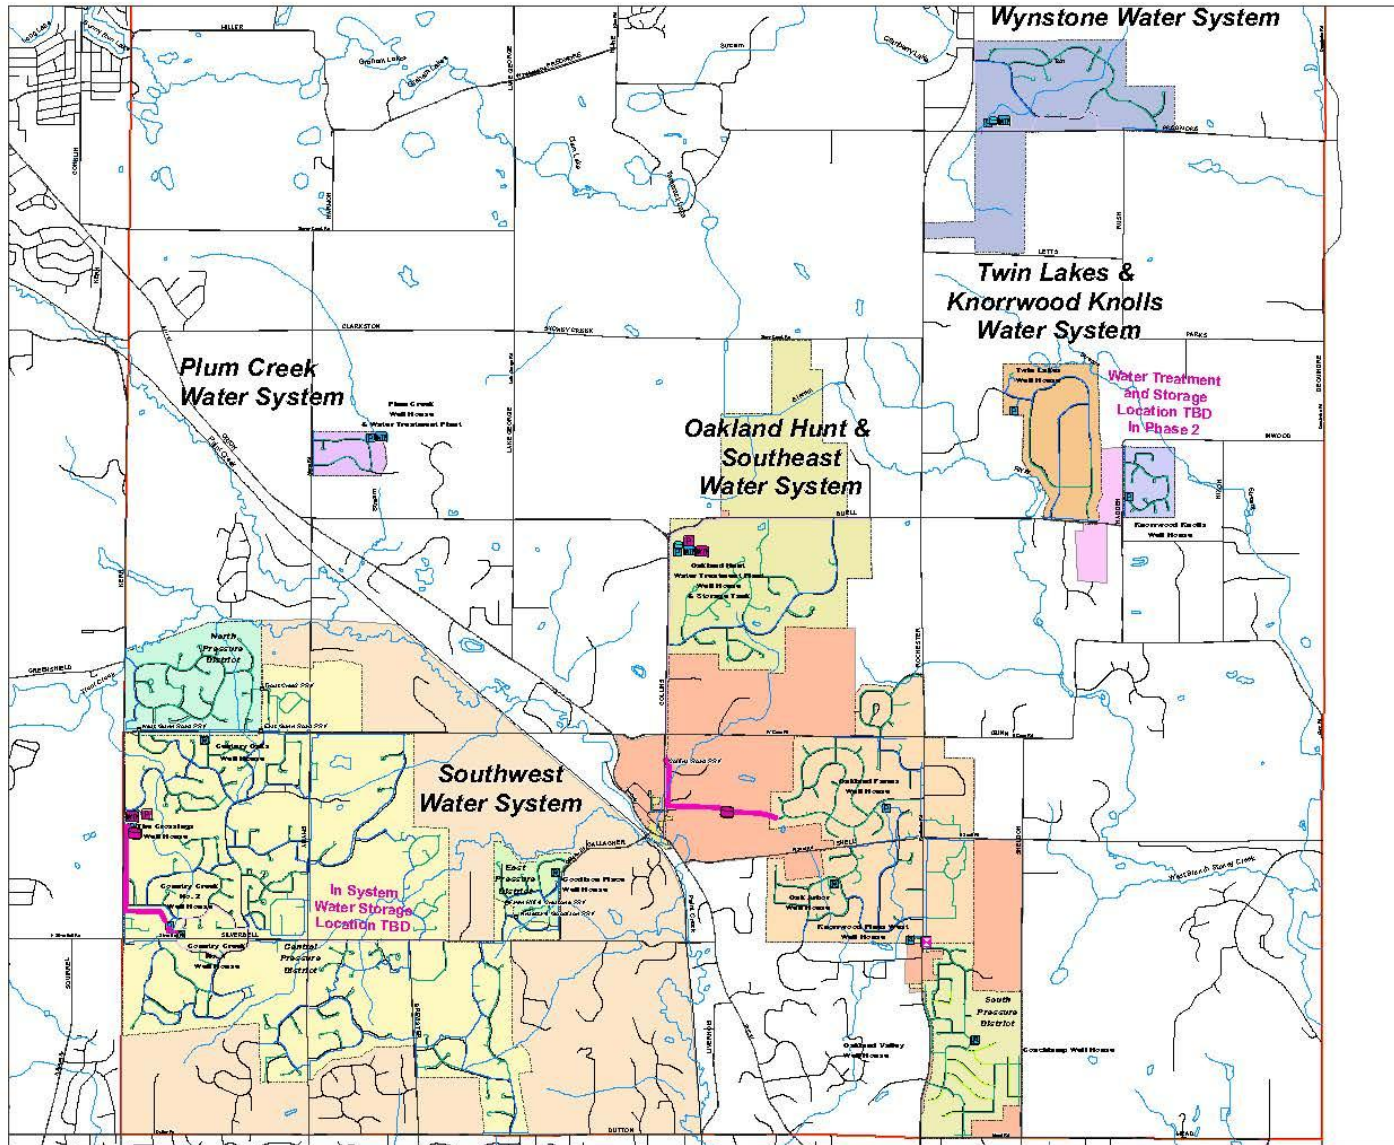

Oakland Township

Water Rates

- ❖ No Increase for Base Rates
 - ❖ \$118/Quarter (Avg. Customer)
- ❖ Cost Recovery Rates
 - ❖ Plum Creek District = \$20/Customer/Quarter (Fixed Rate)
 - ❖ Southwest District = \$6/mcf (\$42/Quarter)
 - ❖ Oakland Hunt District = \$6/mcf (\$42/Quarter)
 - ❖ Southeast District = \$6/mcf (\$42/Quarter)
 - ❖ No Cost Recovery Rate for Wynstone, Twin Lakes or Knorrwood Knolls

Oakland Township Water Master Plan Phase 1

Oakland County Water Resource Commissioner
05.23.2014

- Legend**
- Proposed PRV
 - Proposed Well
 - Decommissioned
 - Proposed Water Storage Tank
 - Proposed Water Main
 - Existing Water Storage Tank
 - Existing Water Treatment Plant
 - Existing Well House
 - Existing Pressure Reducing Valve
- Existing Water Main Size**
- 12"
 - 18"
 - 24"
- 168 hr Service Area**
- Oakland Hunt & Southeast Water System
 - Plum Creek Water System
 - Southwest Water System
 - Twin Lakes & Knorrwood Knolls Water System
 - Wynstone Water System
- Existing Pressure Districts**
- Knorrwood Knolls
 - Oakland Hunt North Pressure District
 - Oakland Hunt South Pressure District
 - Plum Creek
 - Southeast North Pressure District
 - Southeast South Pressure District
 - Southwest Central Pressure District
 - Southwest East Pressure District
 - Southwest North Pressure District
 - Twin Lakes
 - Wynstone

0 1,400 2,800 4,200 5,600 7,000 Feet

This document is intended to depict the approximate spatial location of the mapped features within the Community and all use is strictly at the user's own risk.

Coordinate System: NAD 1983 StatePlane Michigan South FIPS 2113 Feet

Master Plan Improvement Projects (Phase I)

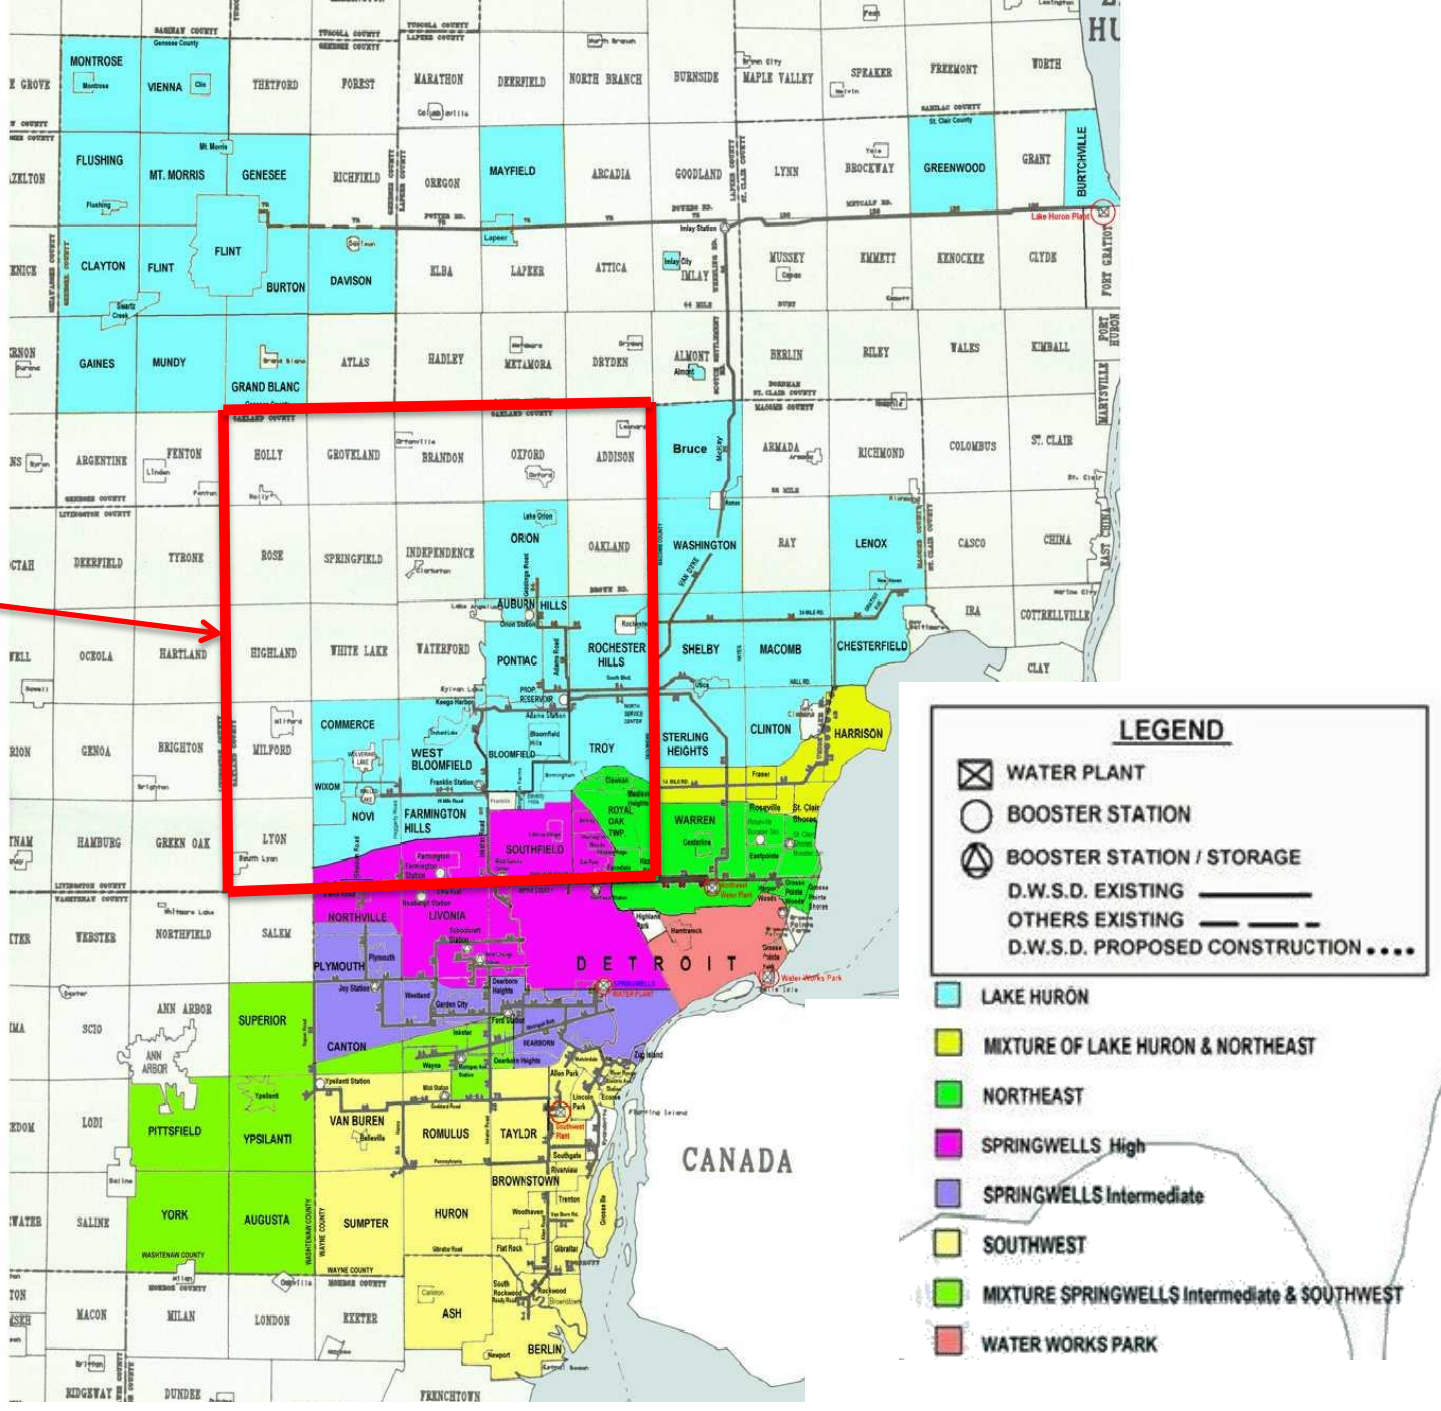

Oakland Hunt, Southeast, and Southwest Districts

DWSD Option

- ❖ Current DWSD rates are almost double current well water rates
- ❖ Cost to connect to DWSD and add storage is \$4 Million more than treatment and storage for existing system (SW District only)
- ❖ Future DWSD rate increase is projected at 4% to 10% per year

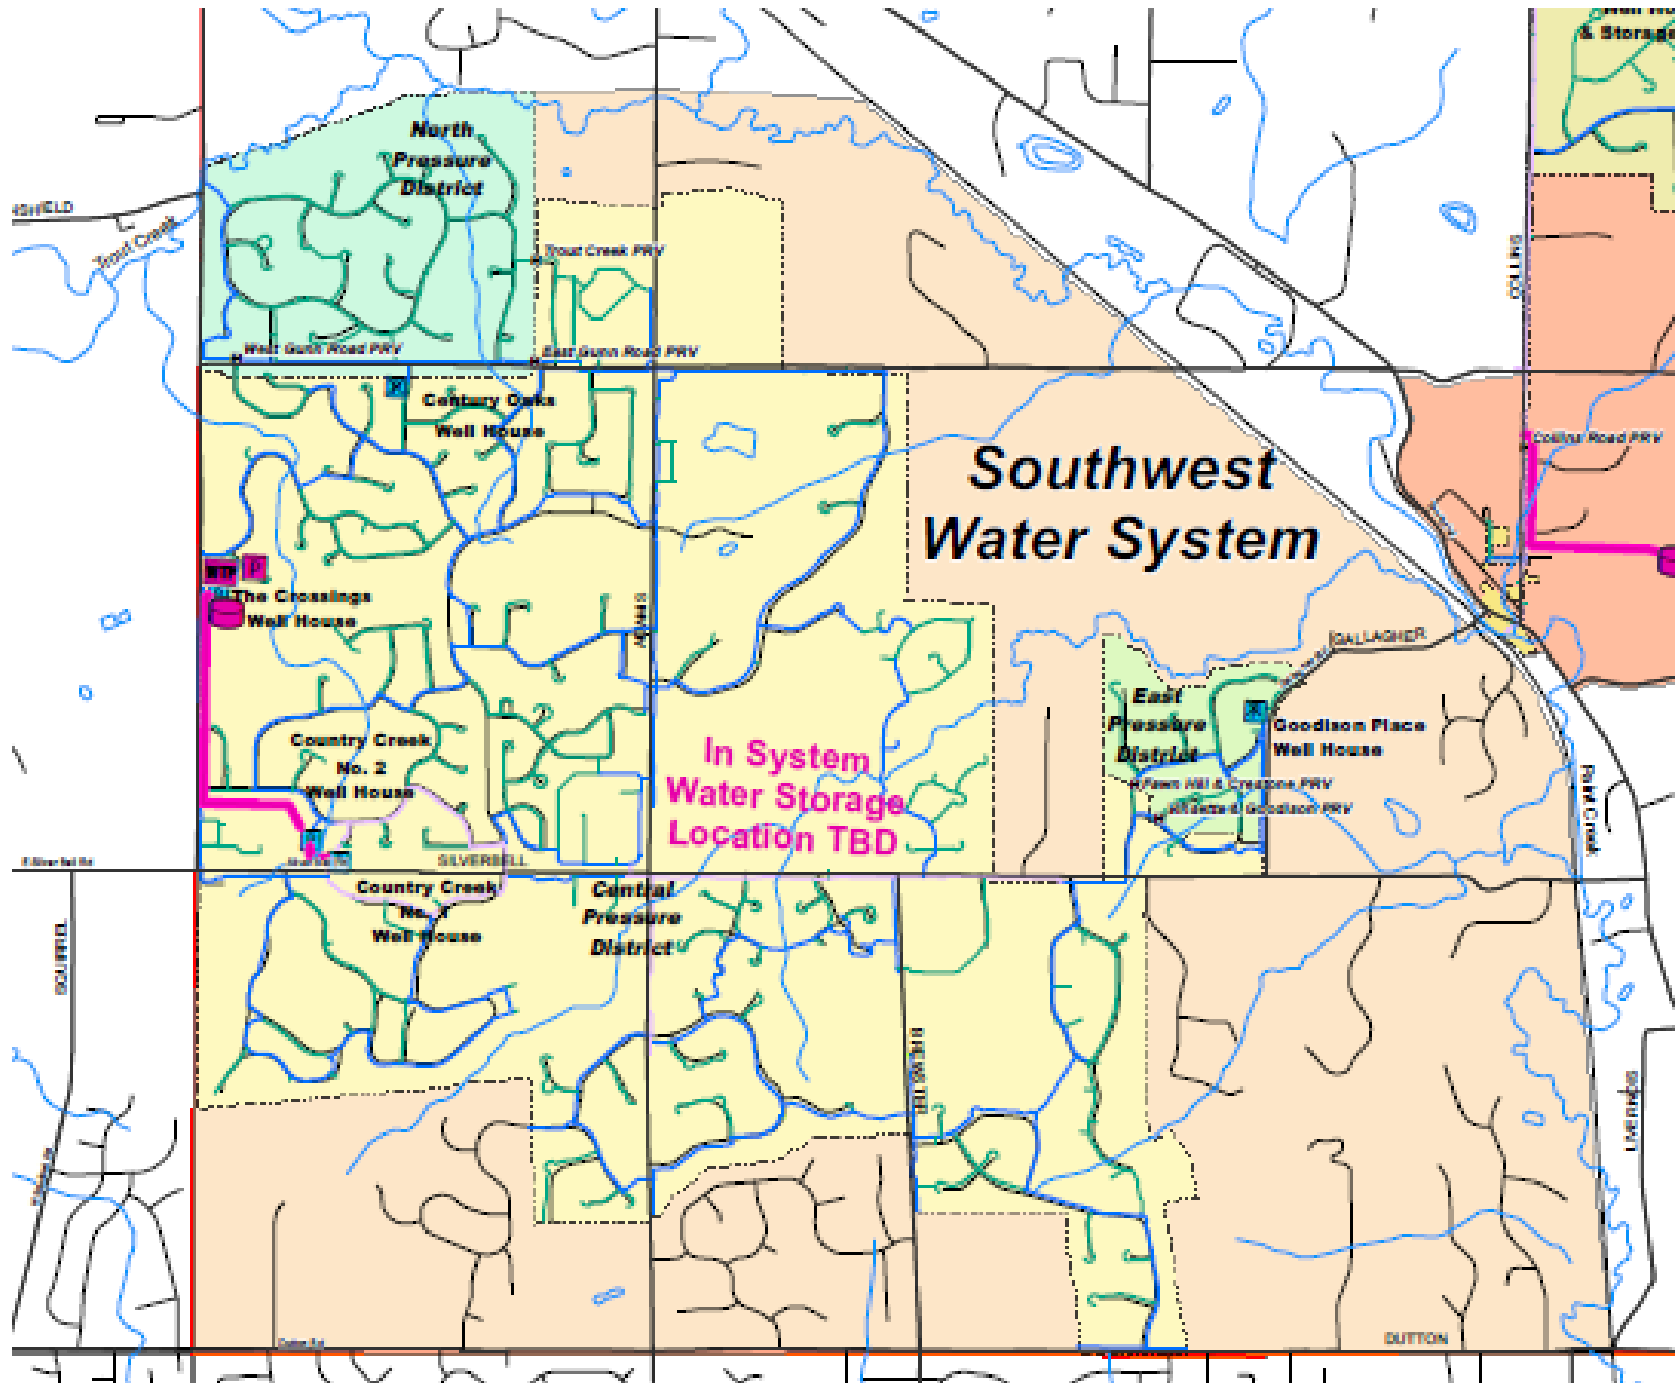

Existing DWSD Water System

Oakland County Boundary

Southwest District

- ❖ Distribution System Storage
 - ❖ MDEQ Requirement
 - ❖ Improved Water Pressure (Peak Flows)
 - ❖ Improved Reliability
- ❖ Treatment (Iron Removal)
 - ❖ Improved Water Quality
 - ❖ Reduced Home Treatment Expense

Southwest Water System

In System Water Storage Location TBD

North Pressure District

East Pressure District

Central Pressure District

SILVERBELL

SILVERBELL

CALLAHAN

Country Creek

Goodison Place

Country Creek

Century Oaks Well House

The Crossings Well House

Country Creek No. 2 Well House

Country Creek No. 1 Well House

Goodison Place Well House

Green Hill & Creighton PWS

Allstate & Goodison PWS

North Creek PWS

West Gunn Road PWS

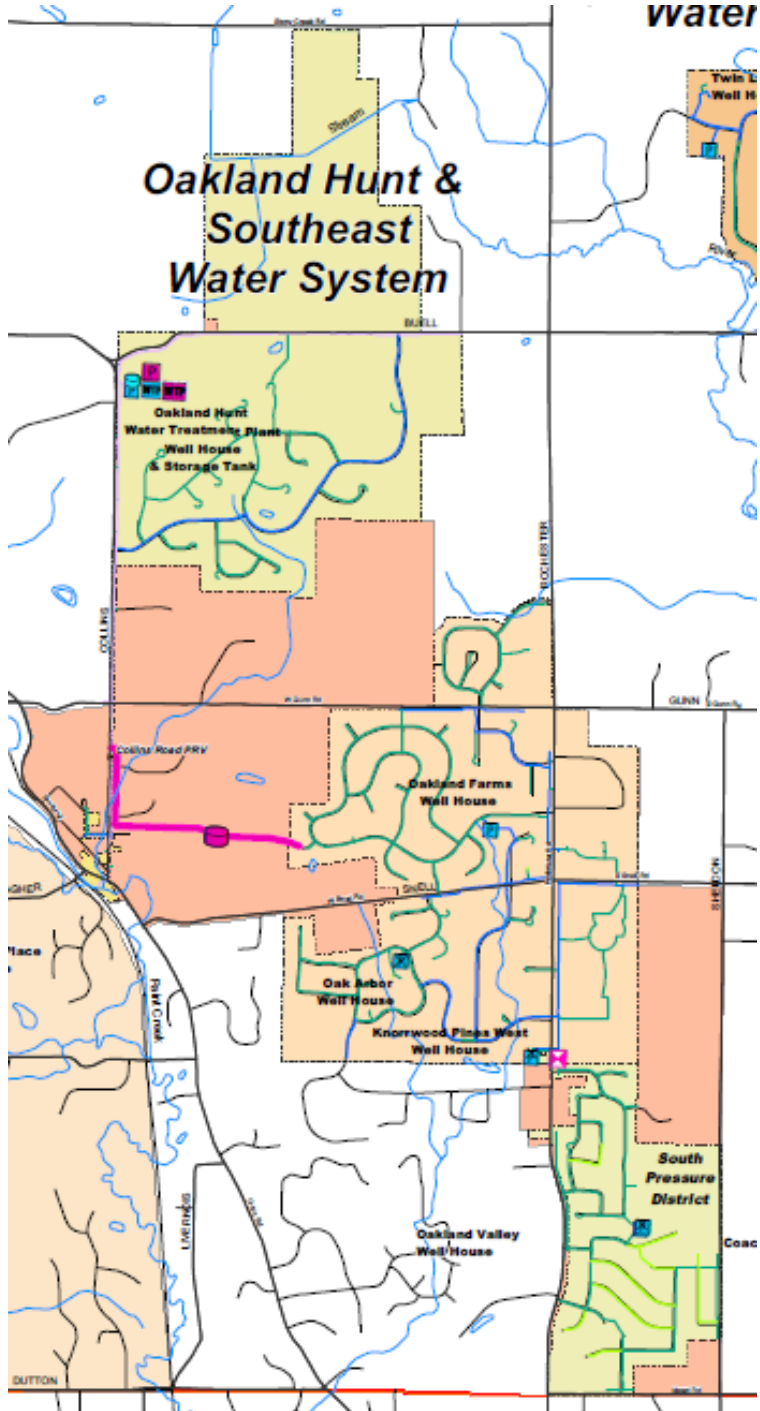

East Gunn Road PWS

Callahan Road PWS

Oakland Hunt and Southeast District

- ❖ Inter Connection
 - ❖ Improved Reliability
 - ❖ Well Site Redundancy
- ❖ Distribution System Storage
 - ❖ MDEQ Requirement
 - ❖ Improved Water Pressure (Peak Flows)
 - ❖ Improved Reliability
- ❖ Treatment (Iron Removal)
 - ❖ Improved Water Quality (SE District)
 - ❖ Reduced Home Treatment Expense (SE District)

Oakland Hunt & Southeast Water System

Project Information

- ❖ Total Project Cost = \$25 Million to \$30 Million (Conceptual Engineering)
- ❖ Project Schedule
 - ❖ Drinking Water Revolving Fund Project Plan by May 2015
 - ❖ Project Bonding In August 2015
 - ❖ Design Completion December 2015
 - ❖ Construction Starting in Spring 2016
 - ❖ Construction Completion by Summer of 2018
- ❖ Project Funding
 - ❖ DWRF Loan (Drinking Water Revolving Fund - Preferred Funding)
 - ❖ Cost Recovery Rate (Phased in Over 3 Years)

Oakland Township Water System

Master Plan Project

Phase I Rate Projections (note 1)

Rate Year	Fixed Rate Per Quarter (note 2)	Base Rate (\$ / mcf) (note 3)	Cost Recovery Rate (\$/mcf)	Avg Customer (\$/quarter)	Avg Customer (\$/month)
Current (7/1/13 to 6/30/14)	\$39.25	\$13.75	n/a	\$118	\$39
FY 2015 (7/1/14 to 6/30/15)	\$39.25	\$13.75	\$6.00	\$161	\$54
FY 2016 (7/1/15 to 6/30/16)	\$39.25	\$13.75	\$12.00	\$205	\$68
FY 2017 (7/1/16 to 6/30/17)	\$39.25	\$13.75	\$22.50	\$281	\$94
Notes:					
1) Based on conceptual engineering total project cost estimate of \$25 million					
2) Up to 1,500 cubic feet of water usage					
3) For all consumption over 1,500 cubic feet					

Q & A

A photograph of the Oakland Hunt Water Treatment Plant and Ground Water Storage facility. The central feature is a large, tan, cylindrical water storage tank with horizontal bands. To its right is a brick building with a dark roof, possibly a control room or maintenance building. A paved road leads towards the building. The ground is covered in snow, and there are several trees, including evergreens and a bare deciduous tree. A black fence surrounds the tank area. The sky is clear and blue.
