

## ORION ROAD RESURFACING WILL BEGIN IN LATE JULY

The Road Commission for Oakland County (RCOC) expects to begin resurfacing two sections of Orion Road between the Village of Lake Orion and Rochester Hills in late July.

### PROJECT DETAILS

This project involves resurfacing two sections of Orion Road. The first section runs from Flint Street in the Village of Lake Orion to Adams Road in Oakland Township (including the portion that runs through Orion Township). The second section runs from Snell Road in Oakland Township to Rochester Road in Rochester Hills.

The project will involve milling the existing pavement in curb areas and pavement surface repairs followed by resurfacing with one-and-a-half inches of asphalt. Additionally, guardrail will be replaced where needed, one drainage culvert will be replaced under the road and centerline rumble strips will be added.

### TRAFFIC IMPACTS

The road will remain open to two-way traffic at all times, though there will be lane closures, with traffic directed by flaggers. Motorists should expect delays.

### PROJECT SCHEDULE

Work is expected to start in late July. All road work is expected to be completed by Sept. 8, with the project fully completed by Nov. 14.

### PROJECT COST/FUNDING

The project is expected to cost more than \$800,000. It was selected by the state Legislature to receive a grant from the state's Roads and Risk Reserve Fund, which is covering most of the cost. The remainder will be paid for by RCOC.

### ORION BRIDGE PROJECT

The Orion Road paving project will overlap with the project to replace the Orion Road bridge over the Paint Creek just north of Snell Road. The road will be closed at the bridge from approximately June 25 to Aug. 1
